EDUCATION

Murang'a University of Technology

B.S. in Computer Science
2022 - 2026

Utumishi Boys Academy

KCSE — Grade B (Plain)
2017 - 2022

TECHNICAL SKILLS

Languages

Python, JavaScript, C, C++, PHP

Frontend

React, Vite, HTML5, CSS3, Tailwind CSS

Backend

Flask (Python), Node.js

Databases

SQLite, MySQL

AI / ML

Groq API (Llama-3.3-70B), Prompt Engineering, AI Integration

Networking

TCP/IP, LAN/WAN Configuration

Tools

Git, GitHub, VS Code, Vercel, MS Office

Other

PWA Development, REST APIs, localStorage, Speech Synthesis API, Electrical Installation

CERTIFICATIONS

CCNA — Cisco, Sept 2023

IBM SPSS Statistics — IBM, Feb 2023

AWS Cloud Practitioner — AWS Training, Feb 2026

IBM Cloud Computing

Fundamentals — IBM SkillsBuild, Mar 2026

Motivated Computer Science graduate with a strong foundation in programming, software development, and IT systems. Seeking an entry-level opportunity in software development or ICT to apply technical knowledge and contribute to organizational goals from day one. Passionate about building impactful, user-centred solutions — demonstrated through SafeGuide (Rafiki), a mental health crisis companion web application built for Kenyan users.

Projects

SafeGuide (Rafiki) — Mental Health Crisis Companion PWA

2024 - Present

Personal / University Research Project — mental-health-crisis-companion.vercel.app

- Sole developer of a full-stack Progressive Web App providing mental health crisis support for Kenyan users, built with React/Vite, Flask/Python, SQLite, and Groq's Llama-3.3-70B-Versatile AI model.
- Implemented anonymous login, mood selector, AI-powered chat, text-to-speech with global mute toggle, and a settings panel persisted via localStorage.
- Built a full admin panel with paginated user/session listing, risk filtering, crisis event flagging, and a live chat history dashboard.
- Presented to a university panel; prepared long-form and five-minute pitch presentations.

ServePoint — Restaurant Point-of-Sale System

2024

Personal Project

- Designed and built an 11-screen single-file React app — login, dashboard (Chart.js), menu, billing, tables, inventory, reports, and support — with a localStorage-based backend.
- Compiled into a fully self-contained HTML file for easy deployment anywhere.

Avalon Pharmacy System

Completed

Personal Project — SQLite, Python, POS

- Built a pharmacy POS and inventory system across 10 milestones, with FEFO stock deduction, price snapshotting at sale time, and a settings-driven pharmacy identity.
- The build that set the architectural conventions reused on every project since.

Blessed Seed — School Management System

Deployed

Personal Project — JWT Auth, SQLite, AI Assistant

- Built a full school ERP through 20+ milestones — auth, attendance, grades, fees, timetabling, behaviour tracking, and an AI assistant.
- Deployed on a Windows server with XAMPP and NSSM.

Times Hardware — POS & Inventory

Completed

Personal Project — M-Pesa, ReportLab, SQLite

- Built a hardware store management system across 9 milestones, with M-Pesa Daraja STK Push payments and ReportLab-generated invoices.
- Used a SQLite WAL-mode database for reliability under load.

Other systems — HRIMS, EstateFlow, a transport logistics platform, an ISP billing system, and more — available on request or on github.com/jgmuniu.

Career Interests

Software Development

Designing, developing, and testing applications for real-world challenges, with a focus on full-stack web development and UX.

AI & Machine Learning

Exploring intelligent systems that automate processes, with hands-on experience integrating LLM APIs into production apps.

Database Management

Secure, efficient, and optimised data storage, retrieval, and management.

Web Development

Building user-friendly, responsive, dynamic web applications with React, Flask, and modern JavaScript.

Networking & IT Infrastructure

Network setup, troubleshooting, and IT systems optimisation.

Project Management

Leading technology projects to timely delivery, aligned with objectives and innovative outcomes.

Hobbies & Interests

Tech Content Creation • Coding & Open-Source Exploration • Listening to Music • Watching Movies • Nature Walks
